Project Name	Project – Signs with Smart Connectivity for Better Road Safety

Create an Account in Open Weather Map Website

The screenshot shows the OpenWeather website's 'Weather API' page. The header includes the OpenWeather logo, a search bar, and navigation links: Guide, API, Dashboard, Marketplace, Pricing, Maps, Our Initiatives, Partners, Blog, For Business, and Support. The main content area is titled 'Weather API' and includes a breadcrumb 'Home / Weather API'. A paragraph encourages signing up for the fast and easy-to-work weather APIs, recommending the 'One Call API 3.0'. Below this, there are two main sections: 'One Call API 3.0 NEW' and 'Pay as you call'. The 'One Call API 3.0' section lists features like minute, hourly, and daily forecasts, and historical data. The 'Pay as you call' section highlights '1,000 API calls per day for free' and '0.0012 GBP per API call over the daily limit'. A 'Subscribe to One Call by Call' button is present. The 'Professional collections' section mentions various data collections and an enterprise license. The footer contains a small note about enterprise-level projects.

Weather API

Home / Weather API

Please, [sign up](#) to use our fast and easy-to-work weather APIs. As a start to use OpenWeather products, we recommend our [One Call API 3.0](#). For more functionality, please consider our products, which are included in [professional collections](#).

One Call API 3.0 NEW

[API doc](#) [Subscribe](#)

Make one API call and receive all essential weather data in one response:

- Minute forecast for 1 hour
- Hourly forecast for 48 hours
- Daily forecast for 8 days
- Historical data for 40+ years back by timestamp
- National weather alerts

Read more about this API and subscription plan in the [FAQ](#).

Pay as you call

1,000 API calls per day for free
0.0012 GBP per API call over the daily limit

[Subscribe to One Call by Call](#)

This is a separate subscription plan, which include only One Call API.

Professional collections

For professionals and specialists with middle sized project, we recommend our Professional collections, which included [Current & Forecasts collection](#), [Historical weather data collection](#), [Weather Maps collection](#) and other APIs.

For Enterprise level projects we provide Enterprise license, which is included all forecast products and current state, along with alerts, maps, and other products. [Learn more](#).
